Technical Information Bulletin

TRAMFLOC® 1138 FOAM CONTROL AGENT

Product Description

Tramfloc®1138 is a mineral oil based designed to control foam in emulsion paint, latex and adhesive systems. Tramfloc®1138 was specifically designed to be used in paint systems which experience foam formation due the presence of latex emulsions, dispersants and other process ingredients. This formulation is useful in controlling foam at relatively low rates.

Properties

Tramfloc®1138 has an appearance of hazy amber liquid. It is dispersable in water and has a density of 7.59 lbs per gallon. The formulation's flash point is >340° F.

Uses

Tramfloc®1138 is used for the following applications: paint production, pigment dispersion, latex processing and adhesive formulating. Stirring is recommended prior to use of this product. A starting dose of 0.2- 0.5% of total formulation is recommended. The dosage should be adjusted to achieve the desired level of foam control. Tramfloc®1138 should be added as received via metering system early in the foaming process to prevent foam formulation.

Safety and Health

Wash exposed areas with soap and water. Flush eyes with water for a minimum of 15 minutes. If irritation or nausea persists, seek medical attention. If inhalation occurs, move victim to fresh air. If unconscious, administer artificial respiration and seek medical attention.
