TRAMFLOC® 2218 DEFOAMER FOR ADHESIVE APPLICATIONS

Product Description

Tramfloc® 2218 is a blend of special wax and mineral oil for adhesive applications.

Typical Properties

Appearance:	liquid
Color:	opaque off-white
Active ingredients:	approx. 95.0%
Consistency:	approx. 500 mPas/cps
Density at 20°C:	approx. 7.10 lbs/gal
Emulsifiable:	highly emulsifiable

Properties/applications: Tramfloc® 2218 is a workhorse and cost-effective oil-based defoamer for adhesive applications. It provides excellent compatibility, dispersibility and long term performance in a wide variety of adhesive and coatings formulations. Tramfloc® 2218 has many applications including PSA adhesives, laminating adhesives, packaging and paper adhesives, wood glue and construction adhesives and OPV and clear coatings.

Recommended levels/use: The properties and performance of a defoamer are greatly dependent upon the specific formulation in which it is utilized and, consequently, should always be tested (possibly at different treatment levels, temperature, and/or time intervals) to verify performance prior to use. A starting dosage level from 0.2% to 1.0% based on the weight of the formulation, is recommended.

Storage/handling: Always mix prior to use as the product tends to separate slightly. Mix product and retest for quality after one year from the date of manufacture. The minimum shelf life in closed containers is 12 months from the date of manufacture. Refer to the Material Safety Data Sheet for additional handling information.

Packaging

Tramfloc® 2218 is available in 400# drums, 37# pails, tank truck and railcar quantities.
