Technical Information Bulletin

TRAMFLOC® 6201 FOAM CONTROL AGENT

Product Description

Tramfloc®6201 is a glycol ester based designed to control foam in a wide variety of food and non-food applications. Tramfloc®6201 was specifically formulated to have long lasting effectiveness in food, industrial, dairy, sugar processing and fermentation applications. The formulation is also effective in certain adhesive and coating formulations. This formulation is useful in controlling foam at relatively low rates. The ingredients of Tramfloc®6201 comply with 21 CFR 175.105 and 300, 176.170, 180 and 200. Tramfloc®6201 may be used in paper and adhesive which contact food.

Properties

Tramfloc®6201 has an appearance of a clear, yellow to amber liquid. It emulsifies in water and has a density of 8.41 lbs. per gallon. The formulation's flash point is >330° F.

Uses

Tramfloc®6201 is used primarily for the control of foam in a wide variety of food and organic chemical applications. This formulation is a vegetable derived ester of a glycol polymer. Tramfloc®6201 is Kosher for Passover, Pareve and Halal certified for food applications. Tramfloc®6201 is effective in the 0.1-0.5% dosage range. The dosage should be adjusted to achieve the desired level of foam control. Tramfloc®6201 should be added as received via metering system early in the foaming process to prevent foam formulation.

Safety and Health

Wash exposed areas with soap and water. Flush eyes with water for a minimum of 15 minutes. If irritation or nausea persists, seek medical attention. If inhalation occurs, move victim to fresh air. If unconscious, administer artificial respiration and seek medical attention.
