

# SAFETY DATA SHEET

According to Federal Regulation 29 CFR 1910.1200

## SECTION 1: Identification of the substance/mixture and of the company/undertaking

### *Product identifier*

Product names: TRAMFLOC® 1003FGA

Type of product: Potassium based mixture

### *Relevant identified uses of the substance or mixture and uses advised against*

Identified uses: Processing aid for industrial applications.

Uses advised against: none

### *Details of the supplier of the safety data sheet*

Company: Tramfloc, Inc.  
6046 FM 2920 Rd. #615  
Spring, TX 77379-2542

Telephone: 888-929-8973

Telefax: 480-383-6895

E-mail address: water@tramfloc.com

### *Emergency telephone number:*

24-hour emergency number: 800-424-9300 CHEMTREC (CCN 20412), Outside US 703-527-3887

## SECTION 2. Hazards Identification

### *Classification of the substance or mixture*

According to UN GHS criteria

No need for classification according to GHS criteria for this product.

### *Label elements*

Globally Harmonized System (GHS)

The product does not require a hazard warning label in accordance with GHS criteria.

### *Other hazards*

According to UN GHS criteria : No specific dangers known, if the regulations/notes  
for storage and handling are considered.

### **SECTION 3. Composition/Information on Ingredients**

#### *Substances*

Not applicable

#### *Mixtures*

Chemical nature polyacrylic acid, sodium salt, crosslinked

### **SECTION 4. First-Aid Measures**

#### *Description of first aid measures*

Remove contaminated clothing.

If inhaled:  
remove to If difficulties occur after dust has been inhaled,  
fresh air and seek medical attention.

On skin contact: Wash thoroughly with soap and water.

On contact with eyes:  
under running Wash affected eyes for at least 15 minutes  
water with eyelids held open.

On ingestion: Rinse mouth and then drink plenty of water.

#### *Most important symptoms and effects, both acute and delayed*

Symptoms:  
non- No significant symptoms are expected due to the  
classification of the product.

#### *Indication of any immediate medical attention and special treatment needed treatment*

Treat according to symptoms (decontamination, vital functions), no known specific antidote.

### **SECTION 5. Fire-Fighting Measures**

#### *Extinguishing media*

Suitable extinguishing media: water spray, dry powder, foam

#### *Unsuitable extinguishing media for safety reasons*

carbon dioxide, water jet

#### *Additional information*

Avoid whirling up the material/product because of the danger of dust explosion.

#### *Special hazards arising from the substance or mixture*

Burning produces harmful and toxic fumes.

#### *Advice for fire-fighters*

Special protective equipment: Wear a self-contained breathing apparatus.

### *Further information*

Contaminated extinguishing water must be disposed of in accordance with official regulations. The degree of risk is governed by the burning substance and the fire conditions.

## **SECTION 6. Accidental Release Measures**

Forms slippery surfaces with water.

### *Personal precautions, protective equipment and emergency procedures*

Breathing protection required. Avoid dust formation.

### *Environmental precautions*

Do not discharge into drains/surface waters/groundwater.

### *Methods and material for containment and cleaning up*

For large amounts: Contain with dust binding material and dispose of. Dispose of in accordance with national, state and local regulations.

### *Reference to other sections*

Information regarding exposure controls/personal protection and disposal considerations can be found in section 8 and 13.

## **SECTION 7. Handling and Storage**

### *Precautions for safe handling*

Handle in accordance with good industrial hygiene and safety practice.

Breathing must be protected when large quantities are decanted without local exhaust ventilation. Avoid the formation and deposition of dust.

Protection against fire and explosion:

The granulate is not capable of a dust explosion. The product contains combustible polymers. The product is not easily combustible and also not self combustible. Accumulation of fine dust may entail the risk of a dust explosion in the presence of air. Avoid whirling up the material/product because of the danger of dust explosion.

Dust explosion class: Dust explosion class 1 (Kst-value >0 up to 200 bar m s<sup>-1</sup>).

### *Conditions for safe storage, including any incompatibilities*

Suitable materials for containers: Stainless steel 1.4401, Stainless steel 1.4301 (V2), High density polyethylene (HDPE), glass, Low density polyethylene (LDPE)

Further information on storage conditions: Keep container dry because product takes up the humidity of air.

The packed product is not damaged by low temperatures or by frost. The packed product will not be damaged by high temperatures. Shelf life is five years when stored in a low humidity environment.

### *Specific end use(s)*

For the relevant identified use(s) listed in Section 1 the advice mentioned in this section 7 is to be observed.

## **SECTION 8. Exposure Controls/Personal Protection**

### *Control parameters*

Components with occupational exposure limits

No occupational exposure limits known.

### *Exposure controls*

Personal protective equipment

Respiratory protection: concentrations or efficiency for Type P3 or	Suitable respiratory protection for higher long-term effect: Particle filter with high solid and liquid particles (e.g. EN 143 or 149, FFP3).
--	--

Hand protection:	Chemical resistant protective gloves (EN 374) nitrile rubber (NBR) - 0.4 mm coating thickness chloroprene rubber (CR) - 0.5 mm coating thickness
------------------	--

Eye protection: EN	Safety glasses with side-shields (frame goggles) (e.g. 166)
-----------------------	--

Body protection: purpose hygiene rules.	No body protection required if used for intended and satisfying generally accepted industrial
---	--

### *General safety and hygiene measures*

Handle in accordance with good industrial hygiene and safety practice. Wearing of closed work clothing is recommended.

## **SECTION 9. Physical and Chemical Properties**

### *Information on basic physical and chemical properties*

Form:	granules
Color:	white
Odor:	faint odor
pH value:	approx. 6.0
Glass transition temperature:	approx. 140 °C (approx. 101.3 hPa)
	The substance / product decomposes.

Lower explosion limit:	100 g/m <sup>3</sup>
Solubility in water:	insoluble, only capable of swelling
Thermal decomposition:	No decomposition if used as directed.
Explosion hazard: could	Product is not explosive, however a dust explosion result from an air / dust mixture.

*Other information*

Minimum ignition energy:	> 1 J
Bulk density:	approx. 650 - 790 kg/m <sup>3</sup>
Hygroscopy:	hygroscopic

## **SECTION 10. Stability and Reactivity**

*Chemical stability*

The product is stable if stored and handled as prescribed/indicated.

*Possibility of hazardous reactions*

The product is not a dust explosion risk as supplied; however the build-up of fine dust can lead to a risk of dust explosions.

*Conditions to avoid*

Avoid humidity.

*Incompatible materials*

Substances to avoid:	water
----------------------	-------

*Hazardous decomposition products*

Thermal decomposition products: stored and	No hazardous decomposition products if handled as prescribed/indicated.
---	--

## **SECTION 11. Toxicological Information**

Information on toxicological effects

*Acute toxicity*

Assessment of acute toxicity:

Virtually nontoxic after a single ingestion. Virtually nontoxic after a single skin contact.

Experimental/calculated data:

LD<sub>50</sub> rat (oral): > 2.000 mg/kg

LD<sub>50</sub> rat (dermal): > 2.000 mg/kg

### *Irritation*

Assessment of irritating effects: Not irritating to the skin. Not irritating to the eyes. The product has not been tested. The statement has been derived from substances/products of a similar composition.

structure or

Experimental/calculated data: Skin corrosion/irritation rabbit: non-irritant  
(OECD Guideline 404) Serious eye  
damage/irritation rabbit: non-irritant (OECD Guideline 405)

### *Respiratory/Skin sensitization*

Assessment of sensitization:

No sensitizing effect. The product has not been tested. The statement has been derived from substances/products of a similar structure or composition.

Experimental/calculated data: No sensitizing effect.

### *Carcinogenicity*

Assessment of carcinogenicity:

A chronic (2-year) lifetime inhalation study in rats with respirable superabsorbent polymer dust (micronized to < 10 µm diameter) resulted in a non-specific inflammatory response in the lungs followed by tumor development in some rats in the highest chronic exposure level of 0.8 mg/m<sup>3</sup>. In the absence of chronic inflammation, tumours are not expected. A safe working level of 0.05 mg/m<sup>3</sup> has been established for respirable superabsorbent polymer dust (< 10 µm diameter) by the German MAK commission.

### *Other relevant toxicity information*

The statement was derived from products of similar composition.

## **SECTION 12. Ecological Information**

### *Toxicity*

Assessment of aquatic toxicity:

There is a high probability that the product is not acutely harmful to aquatic organisms.

Toxicity to fish: LC50 (96 h) > 100 mg/l, *Brachydanio rerio* (OECD Guideline 203, static)

Aquatic invertebrates: EC50 (48 h) > 100 mg/l, *Daphnia magna*  
(OECD Guideline 202, part 1, static)

Aquatic plants: EC50 (72 h) > 100 mg/l, *Desmodesmus subspicatus* (OECD Guideline 201) Nominal concentration.

Microorganisms/Effect on activated sludge:

The inhibition of the degradation activity of activated sludge is not anticipated when introduced to biological treatment plants in appropriate low concentrations.

Soil living organisms: LC50 > 1.000 mg/kg, *Eisenia foetida* (OECD Guideline 207)

#### *Persistence and degradability*

Assessment biodegradation and elimination (H<sub>2</sub>O):

The product is not very soluble in water and can thus be removed from water mechanically in suitable effluent treatment plants.

#### *Bioaccumulative potential*

Assessment bioaccumulation potential:

The product will not be readily bioavailable due to its consistency and insolubility in water.

#### *Mobility in soil*

Assessment transport between environmental compartments:

Volatility: The substance will not evaporate into the atmosphere from the water surface.

Adsorption in soil: Adsorption to solid soil phase is not expected.

#### *Results of PBT and vPvB assessment*

According to Annex XIV of Regulation (EC) No.1907/2006 concerning the Registration, Evaluation, Authorisation and Restriction of Chemicals (REACH): The product does not contain a substance fulfilling the PBT (persistent/bioaccumulative/toxic) criteria or the vPvB (very persistent/very bioaccumulative) criteria. Self classification

#### *Other adverse effects*

The product does not contain substances that are listed in Regulation (EC) 1005/2009 on substances that deplete the ozone layer.

#### *Additional information*

The product contains: ≤ 20 (W/W) PPM total amount of heavy metal as Pb

Add. remarks environmental fate & pathway:

Due to the consistency of the product, dispersion into the environment is impossible. Therefore no negative effects on the environment may be anticipated based on the present state of knowledge.

Other ecotoxicological advice:

Do not release untreated into natural waters. The ecotoxic effect of the product has not been

tested. The information on this was derived from products of similar structure or composition.

## **SECTION 13. Disposal Considerations**

### *Waste treatment methods*

Must be disposed of or incinerated in accordance with local regulations.

A waste code in accordance with the European waste catalog (EWC) cannot be specified, due to dependence on the usage. Observe national and local legal requirements.

### *Contaminated packaging*

Uncontaminated packaging can be re-used. Packs that cannot be cleaned should be disposed of in the same manner as the contents.

## **SECTION 14. Transport Information**

### *Land transport*

Ship Type: Not evaluated

### **SECTION 15. Regulatory Information**

*Safety, health and environmental regulations/legislation specific for the substance or mixture*

VDI 2263 'Dust fires and explosions; Danger, Evaluation, Protection measures'

### **SECTION 16. Other Information**

The information contained herein is to the best of our knowledge and belief accurate. However, since the conditions of handling and use are beyond our control, Tramfloc, Inc. makes no guarantee for results obtained, and assumes no responsibility for damages incurred by use of this product. It is the responsibility of the user to comply with all federal, state, and local laws and regulations.
